### SPECIAL LTT INFO 01.2003

#### That „light-thermo-therapy“ - the instrument to the photon-therapy

Light-therapy through artificial light (blue-light, red-light, infrared-emitters) among others, with insufficient penetration to the local areas heat-treatment, Hyperämisierung and pain-absorption with reflective effect on more deeply placed organs. The light-thermo-therapy is a sterile and painless treatment of a wider spectrum of illnesses without medicaments and without side-effects.

The appliance generates the constant visible light with infrared-spectrum of the sunbeams and the entire color-scale without UV light.

The original forces of the nature of living body gets its inimitable strength back.

The light-thermo-therapy is a healing effect on the organism with help of the vibration at fields as the sun-radiation of soft magnetic form.

The health is a very extensive concept, that comprises the psychic and functional well-being of the human being. The health and energy that one can have in the old age, are determined in many respects by social, economic and genetic factors. And nevertheless the health lies in our own hands. In order to control the health and the functions of particular organs and synthesis, the people use different means and methods.

That are traditional unconventional methods in the medicine. But the help of people, that have no medical knowledge, is also used. Methods and advices from the people's -medicine enjoy big popularity.

Very often, and that is very reasonable, one turns to the cure-forces of the nature, the sun, the air, the water and minerals of the earth. Health is the connection of the body and the soul- good mood, ability to work, the wish to be important for yourself and for the fellow men.

Often men and women, that acutely or long time are ill, suffer from fast fatigue, and their ability to work is produced only slowly again. Furthermore, also occur disturbances of the nervous system, bad mood, insomnias of different types, absence of appetite and the inclination to the hypochondria.

An essential characteristic of the present-day medicine is the constant use of new medicaments. This in general positive tendency has of course its reverse side. These could be different allergies, genetic defects and the loss of the effects by frequent and long application.

So the question still remains, whether one can find cure and promote the health without the help of the medicine, by the use of the strength of the light, the magnet-field of the earth, and from physical qualities, that strengths are very similar in nature. A special role plays the light-thermo-therapy instrument, in which the healing effect of several

radiation-types finds application, and namely the focused constant visible light-radiation infrared-spectrum without UV irradiation. The simultaneous application of different radiation-types gives a reinforced cure-efficiency. But also from the waves the entire visible light-spectrum can be applied goal-oriented alternatively with the color-filter. The goal-oriented use of insufficient light-radiation-doses photons for the cure, for the prophylaxis and the rehabilitation of ill persons carries the name of (bio)photons medicine (Gurwitsch, Professor Popel). The light-thermo-therapy can be combined with medicaments and doesn't exclude the use of other methods. The low strength of the energetic influence through the light-thermo-therapy is absolutely harmless. This method makes it possible, to heal a beginning illness, because our body has the unique quality, to come back to the original health-condition. The effect of the photons activates the potential reserves of the body from a cell till to the entire organism. It gets the immunity and mobilises the defense-strengths.

The photons medicine is the most promising development trend of the modern medical ways of thinking about the protection of the harmonic condition of the human health with help of the unique results of the quant- physic, the high-technologies in the field of computer science, the up-to-date ideas about the nature of the contemporary and thousand years old Asian medicine.

The light-thermo-therapy is a quick developing, highly effective direction in all areas of the medicine against the most dispersed malady:

seasonal dependent depressions (SDD), depressions of all type, Myalgie, Radikulitis, Ischämies, different skin-illnesses etc

The light-thermo-therapy is contra-indicated by acute surgical cases and partially in the obstetrics, where emergency medical measures would be necessary.

One could prove convincingly by a multiplicity of observations that a local effect-effect is reached with application of the light-thermo-therapy, such as for example immune-regulating, pain-relieving, anti-inflammatory. A general stimulation of the organism takes place, the general-condition and the well-being, the sleep and the physical capacity improve themselves. The light-thermo-therapy corrects the activity of the immune-system, it means it supports the defense from the unfavorable illness influences. The light-thermo-therapy improves the Hämodynamic relevant values: high-blood pressure and pulse, it normalises the contraction of the heart-muscle, improves its functional ability, the rhythm and the heart-frequency, the tone of the vessel-system is improved, the capacity of the bloodstreams improves itself and also the

transportation of the oxygen, bio-photons and other biochemical means to all organs and tissues. The blood-values become better and the cholesterol-level sinks.

The generally stimulating methods can find application for each age, by depressions in the old age, by chronic fatigue, to the strengthening of the health by long illnesses by grown-ups and children. Its total harmlessness, the good compatibility and simple application enables the use of the instrument in doctor's offices, hospitals, as well as at home. The appliance is in the application extremely simple and also helps to get rid of each muscle-skeleton pain. Headaches are no autonomous illness. The ninety percent of the cases are headaches, caused through vessel-disturbances and tension, to ten percent through pathological processes, that happen within the skull. Chronic headaches are the result of tension or contraction of shoulder-neck muscles, by emotional stress, tiredness, menstruation or other irritation factors, by general illnesses, lack of oxygen in the blood, high blood-pressure.

Reasons for headaches can be also toothaches, Otitises (Ohrenentzündung) as well as a tension of the muscles in the neck and shoulder-area.

By joint-illnesses, the light-thermo-therapy shows a high effectiveness and is well compatible with manual therapy as well as massage, nature-therapy and methods to the cleaning of the organism, what brings the positive effects with joint-illnesses by almost 100 percent.

The application in the wound-medicine by sprains, injuries shows astonishing results. Even with unfavorable wounds, sore-cure is accelerated. Not only the treatment-time is shortened but also stimulant sore-cure is promoted.

Arthrose and Osteoarthritis (bones and joints) are illnesses, that frequently appear in daily practice, and that befall the joint-cartilages and in result a bone in joint area is developed. These are mostly hip - and knee-joints.

The widespread are: pains, stiffness of the joints in the morning, blunt pain by weather-change, unpleasant feeling by running, movement-restriction, all that are symptoms for degenerative joint-illnesses.

Light-thermo-therapy the especially applied therapy as full light-strength by different troubles with spinal column (Radikulitis). The treatment-effectiveness in this case is explained particularly by improved circulation in the area of the smallest blood-vessels, the capillaries. Furthermore, the strong anti-inflammatory effect improves the conductivity of the nerves. A local effect is enough in the treatment of Radikulitis, that is not impeded by disk-incident. The organism uses his/its reserves not only but also produces her/it/them again. The genetic memory awakens in him/it.

The appliance is absolutely safe and can even be applied for babies.

In the difference to the classic acupuncture, the appliance doesn't effect the acupuncture-point, because only the expert can do it right, but locally on the dermatome. The appliance is constructed so that just the effect is reached only locally on the dermatome zones. It means that person can enforce the treatments.

The treatment doesn't necessitate much time, few treatments from 3 to 12 min. per session are enough. During the five years, when the appliance for the light-thermo-therapy is on the market, hundred thousands have acquired it. Light-thermo-therapy is an outstanding method to the prevention against any illnesses.

A special-treatment for the increase of the strength of immune-system for you and your children works against any epidemic.

The same is valid also for people, that have an allergy, who can plan the special-treatment with light-thermo-therapy before blooming in spring. Use the unlimited possibilities of the nature-strengths, that are united in the appliance of the light-thermo therapy and improve your well-being, the mental balance as well as the freshness and health of your body again!

#### **Light-thermo-therapy is:**

The simultaneous use of cure-factors: the focused (LAFER) a constant visible light-radiation (yellow-light), infrared-spectrum without UV irradiation, wide band infrared radiation. Yellow-light complete recovery and improvement of the health-condition of the sick person means the decrease of the cure-treatment, Portability, complete harmlessness, simple application, fast amortization of the purchase-price through short treatment time and leaving out of expensive medicaments.

#### **Therapy indications with the light-thermo-therapy appliance**

Seasonal dependent depressions - SDD  
Arthrose and Osteoarthritis pains, (bones and joint-inflammation)  
Myalgie skin-illnesses  
Wound-cure accelerated

#### **Rental fee:**

**Ltt instrument monthly for patient €46.40**

**Ltt instrument for three-months for practices and clinics €116.00**

By purchase taken into account / plus transportation and postage

#### **End price of the appliance:**

**Light-thermo-therapy instrument €399.00**

You can order the appliance to the light-thermo-therapy under following addresses:

**Lichthansa.com - Medical**

Vionvillestr. 7 28211 Bremen

Fax. ( +49) 421 2210 041 telephones (+49) 421 2210 040,
